Geographic distribution of health financing studies (n = 47,488 study-country pairs)

Studies published 2010-2026 (2026 is incomplete). Map: studies naming each country per 10 million people (World Bank population); a study naming several countries counts in each. Log scale; values below 3 or above 1,000 take the end colours. Grey: no study naming the country, or no population data. Empirical analyses: studies other than literature reviews. Open access: share of the 42,144 studies with a DOI (OpenAlex). Funder: studies reporting at least one funder (9,501).
